Tools: Jira | Basecamp | Confluence | Slack | Figma | Miro | Lucidchart

AI: ChatGPT | Claude | Kimi | Lovable | Stitch | Gamma | Julius | AI-assisted Research | Documentation | Prototyping | Analysis

PROFESSIONAL EXPERIENCE

Jamtech Technologies Pvt. Ltd. — Lucknow, India

Associate Business Analyst

Mar 2025 – Present

- Managed/coordinated 25+ projects, including 20+ international engagements, while handling 7–8 concurrent projects across International, Domestic, and Government environments.
- Led requirements elicitation, analysis, prioritization, and validation, translating client needs into solution approaches and actionable requirements.
- Coordinated developers, technical leads, designers, and stakeholders across sprint planning, task allocation, change management, UAT, testing, and delivery.
- Applied AI-assisted workflows across research, documentation, prototyping, presentations, analysis, and testing, reducing related effort by approximately 40%.
- Contributed to internal CRM/SaaS product discovery with Senior Management, recommending 4–5 features, with 3 implemented, while coordinating a 2–3 member junior BA/trainee team.
- Evaluated custom development vs. third-party AI/API solutions to identify practical approaches for reducing implementation complexity, time, and cost.

Business Analyst Trainee

Sep 2024 – Feb 2025

- Supported requirements elicitation, client onboarding, stakeholder communication, project coordination, and solution definition during project initiation.
- Developed foundational BA artefacts including BRDs, FRDs, SRS, User Stories, Use Cases, Acceptance Criteria, Process Flows, Wireframes, and Prototypes.
- Applied Agile/SDLC practices, requirement validation, UAT, and project management processes across software delivery activities.

SELECTED PROJECTS

Bull CRM — <https://bullcrm.io/> (Internal CRM / SaaS Product)

Collaborated with Senior Management on product discovery, feature research, and solution discussions for an internal CRM. Contributed to business-focused feature recommendations, user flows, validation, testing, and implementation, supporting readiness for internal business-team use.

EDSX — <https://www.edsx.ch/> (FinTech Platform)

Coordinated an ongoing, multi-project engagement involving client, technical leads, and development teams, with regular stand-ups, task assignment, and delivery coordination. Applied AI-assisted workflows for documentation, process flows, and analysis, reducing repetitive effort and helping minimize client escalations and repeated changes.

Orifone — <https://www.orifone.ai/> (AI Product)

Handled end-to-end product discovery across requirements, feature recommendations, documentation, prototyping, testing, and solution definition. Contributed to AI/API evaluation, cost optimization, and product/marketing recommendations to support ongoing product development and market positioning.

EDUCATION

B.Tech — Computer Science & Engineering

Aug 2019 – Jun 2023

Gurukula Kangri Vishwavidyalaya | 8.6 CGPA
